## NetworkTV 4K UHD Encoder

The NTVH4K2 is a professional 4K/H.265 HDMI encoder and supports 4K ultra high definition video (max 3840 x 2160P@30fps) via HDMI inputs as multicast or unicast streams.

The encoder can be used as an Ultra High Definition (UHD) IP video encoder where video sources are connected to it via a HDMI cable and the unit is connected to a network. Any PC that can reach it over the network can view the UHD Video, listen to the audio and access all of its control features via the NetworkTV Management Interface.

The encoder can stream video directly onto an IP network, creating channels from the output of a wide range of sources, including satellite TV set-top boxes, cameras, digital signage systems and computers. Combining NetworkTV Encoders with the NetworkTV management system to create HLS channels can also extend video streams outside the LAN for direct delivery to mobile devices or contribute to Content Delivery Networks.

The NTVH4K2 HDMI Video encoder not only supports 2 channels of 4K or 5 channels of 1080P encoding at 1080p, but also supports multiprotocol output. Each channel supports HTTP/HLS/RTMP(RTMPS)/RTSP/UDP protocols outputting simultaneously, which is ideal for the customers who need to output with different protocols.

The NTVH4K2 encoded streams can be added to the NetworkTV Live channel list but can also be recorded on the NetworkTV Management Server and published in the NetworkTV Library Archive for download or VoD.

#### **NetworkTV**

NetworkTV is a complete IPTV solution that helps your enterprise manage and control live and recorded digital video content.

NetworkTV presents a simpleto-use management portal to control IPTV hardware devices across your intranet such as encoders, tuners, streamers and set-top-boxes. It also provides an integral library function to help you organise recordings and pre-recorded content.

If your organization has existing content, it can be uploaded into the centralised NetworkTV Library with the facility to add metadata, poster frames and tagging that will ensure searching for videos is a simple task for your users.

# NetworkTV HD Encoder - NTVH4K2

## Specification:

Video Input: 5 x HDMI (type A) 1.4
Audio Input: HDMI embedded audio

Video

Resolution: Input: 3840x2160, 3392x2208, 2592x1520, 2560x1440, 2304x1296, 1920x1080,

1680x1056, 1280x720, 1024x576, 850x480, 720x576, 640x480, 360x240, and etc.

Output: 3840x2160@30fps, 1920x1080@60fps, 1680x1056, 1280x720, 1024x576,

850x480, 720x576, 640x480, 360x240, and etc.

Encode: H264 base line, H.264 Main, H.264 High, H.265 Main

Frame rate: Max 30fps @ 3840x 2160Max 60fps @ 1920×1080

Data Rate: 0.5Mbps~20Mbps

Rate Control: CBR/VBR

Protocol: HTTP/HLS/RTMP/RTSP/ UDP

Audio

Audio Encoding: MP3 / AAC

Streaming: Primary: H.264, Secondary: H.264

Sample rate: 16K, 32K, 44.1K, 48K

Sampling Precision: 16 bit

Data Rate: 32Kbps~256Kbps

**Network Stream Input** 

Compression: H.265 & H.264

Audio: MPEG 1/2, MP3, AAC

Streaming: Full duplex

Protocol HTTP, RTSP, RTP, UDP (multicast/unicast)

System

Interface: Ethernet 1000 Base-T (RJ-45)

Housing: Aluminum

Certifications: CE, FCC, KCC, RoHS
Power: Less than 15 watts

Operating Temp.  $0^{\circ}\text{C} \sim 45^{\circ}\text{C}$ 

Dimension 185mm x 119mm x 36mm
